

IML LEGAL MEETING & LAW PRACTICE SOLUTIONS

FACT SHEET

Put your organization at the cutting edge of good corporate governance practice while streamlining processes for internal meetings, and those of your clients.

IML's secure and accurate legal meeting and law practice solutions allow for greater accountability and transparency.

From Partner Voting and Mock Juries to Shareholder and Member Meetings, maximize the efficiency and dependability of every meeting with which your firm is involved.

EFFICIENT

Maximize efficiency and simplify every meeting your firm represents with a paperless device that provides instantaneous voting, and satisfies multifaceted voting or election protocols.

TRANSPARENT

A full audit trail of identified voting activity is instantly available, enabling the entire process to undergo detailed scrutiny. Our unique, encrypted technology has been proven 100% secure and accurate.

INSTANTANEOUS

Real time, instantaneous results will not only speed up voting processes, but can also change the direction of a meeting based on the responses from the audience.

INCLUSIVE

Whether an internal brainstorming session, or a client's annual meeting, IML allows your entire group, or audience, to post votes and give opinions.

SCALABLE

IML's legal meeting and law practice solutions can easily accommodate a 10 person mock jury, or a 10,000 person national election.

IML LEGAL MEETING & LAW PRACTICE SOLUTIONS

INTERNAL MEETINGS

PARTNER VOTING

IML's legal meeting and law practice solutions handle complex, weighted voting procedures making the entire process accountable and efficient. IML's technology has been proven to save time, and eliminate human error.

SURVEY, RESEARCH & BRAINSTORMING

Survey internal staff, or the views of your clients, using IML's solutions to answer and gather questions via text messaging, voting, or the keypad's built-in microphone. Responses and comments can be tracked anonymously, demographically, or by individual.

MOCK JURIES

Assess the thoughts and feelings of your mock juries, in real time, as they contemplate and judge the case at hand. Track changing audience opinions, and the effectiveness of an argument, while gauging how an argument resonates with different demographics. Data can be displayed and saved in multiple formats.

TRAINING, ACCREDITATION & TEAM BUILDING

Our pre-event, on-site and follow-up solutions give onsite testing, without the added paperwork, where certification is needed. Your firm can track individual and group responses to ensure training goals are met. The instantaneous test results identify training areas where knowledge is weakest, allowing you to easily course correct. Use one of IML's customizable game shows, or your own custom branded animated scoreboard to add fun and team building to your next meeting. Game shows and quizzes will create an engaging environment that enhances professional learning.

CLIENT MEETINGS

COMPANY ANNUAL SHAREHOLDER MEETINGS

In the rapidly developing regulatory environment, put your clients at the forefront of good corporate governance practice. From automated registration of attendees to instantaneous results, and up to date vote monitors, IML's solutions are the most efficient and accurate way of putting your clients firmly in control of their meetings while empowering their shareholders. IML delivered voting and registration at over 600 Annual Shareholder Meetings globally in 2009.

MEMBER MEETINGS

In the event that a law firm acts as an auditor for associations, unions, faith-based organizations, or Native American Nations, IML will streamline their annual meetings and elections. A full audit trail of identified voting activity is instantly available, enabling the entire process to undergo detailed scrutiny, offering your clients greater transparency, and control of meeting practices.

THE LAW SOCIETY

"The system has transformed the method by which voting is recorded at Council meetings and it provides a speedy, secure and democratic voting process."
